

These are all made out of t-shirt materials. It's awesome and stretchy and doesn't fray and you can hot glue the crap out it.

all you need to do is cut the fabric in strips...and pull it. the edges curl in and it turns into a rope
almost...
you just attach them together with hot glue

and have your way with them....

and all of these are just hot glued together with an extra square of fabric to connect them.

first up is...

braided

these are just basic braids.....you can do thick...you can do small...you could do a bunch of
smalls and hot glue all the ends together to make one big braid. Great project if you are trying
to teach your kid to braid!!!
